

PLEASE do NOT revoke or weaken the NJ "Do not call" law! In fact, if there are any changes to be made, it should be to strengthen the law to include some of the current exceptions! I make it a blanket rule never to respond to a telephone solicitation - whether it is a business, charity or political campaign - so there is no benefit to any of these organizations in assaulting me in my own home with unwelcome interruptions. I know many, many people who feel the same way. Please protect us from what is a nuisance at best and a real danger when used by the unscrupulous to try to trick people into giving personal information that can be used with criminal intent. Thank you for your consideration,  
Susan Herrmann  
Morristown, NJ
